

Dubai Travel Guide

Curated destination knowledge for the WAY TO PARADISE RAG system

1. Dubai Overview

Dubai is known for modern architecture, luxury shopping, beaches, desert experiences, waterfront areas and cultural heritage. A trip can combine modern attractions with traditional neighbourhoods and local food experiences.

2. Major Attractions

- **Burj Khalifa:** Iconic skyscraper in Downtown Dubai, close to Dubai Mall.
- **Dubai Mall:** Major shopping and entertainment destination in Downtown Dubai.
- **Dubai Marina:** Waterfront district with restaurants, walks and evening activities.
- **Palm Jumeirah:** Man-made island area known for resorts, beaches and waterfront views.
- **Dubai Creek:** Historic waterway associated with traditional trading and older parts of Dubai.
- **Al Fahidi Historical Neighbourhood:** Cultural area with traditional architecture and heritage experiences.

3. Culture and Heritage

Al Fahidi Historical Neighbourhood is useful for travellers interested in heritage and traditional architecture. Dubai Creek and older districts provide context about Dubai's trading history. Visitors should respect local customs and follow venue-specific rules.

4. Transportation

Dubai Metro connects several major areas and is useful for moving between popular districts. Taxis and road transport are also commonly used. When planning a day, geographically close attractions should be grouped together to reduce unnecessary travel time.

5. Airport Information

Dubai International Airport is the primary international airport serving Dubai. Airport arrival and departure time should be considered when building the first and final day of an itinerary.

6. Food and Dining

Dubai offers Middle Eastern, Arabic and international cuisine. Travellers interested in food can include local cuisine experiences along with restaurants near their daily sightseeing areas. Current restaurant availability, ratings and prices should come from live tools.

7. Shopping

Dubai Mall is a major shopping destination. Shopping can be included as a preference-driven activity, while current prices and store availability should be retrieved from live sources.

8. Planning Guidance for the AI Agent

- Group nearby attractions in the same day where practical.
- Consider arrival and departure timing when assigning activities.
- Use transportation information when appropriate.
- Use live APIs for current flights, hotels, restaurants and weather.
- Do not treat this guide as a source of live prices or guaranteed availability.
- Use preferences such as Culture, Food, Shopping, Beach and Adventure to influence itinerary choices.

9. RAG Source Policy

This document is curated destination knowledge for retrieval-augmented generation (RAG). The AI planner may use retrieved content for destination context. Live facts such as current prices, availability, weather and flight schedules must come from the corresponding live tools.
